PROFESSIONAL SUMMARY

Full-Stack Developer with a growing focus on AI/LLM applications, experienced in Python, FastAPI, Django, LangChain, and the MERN stack. Skilled at building responsive web applications, REST APIs, and LLM-powered tools, and has delivered a live production website for a real-world client. Built 25+ academic and personal projects across Java, Python, and web technologies.

TECHNICAL SKILLS

AI & LLM Frameworks: LangChain, OpenAI / Gemini LLM APIs, Web search integration, Content extraction (BeautifulSoup), Source-backed summarization

Data & Machine Learning: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn

Programming Languages: Python (Django, FastAPI), JavaScript (React.js, Node.js, Express.js), Java, SQL

Databases: MySQL, PostgreSQL, MongoDB, SQLite

Web Development: HTML5, CSS3, Bootstrap, Tailwind CSS, REST APIs, Role-based access

Tools & Platforms: Git, GitHub, VS Code, Supabase

PROFESSIONAL EXPERIENCE

Full Stack Developer | Ashva IT Solutions | July 2026 – Current

- **Front-End Development:** Building responsive client-side interfaces using HTML, CSS, JavaScript, and React
- **Back-End Development:** Writing server-side application logic using Node.js, Python, and Java
- **Database Management:** Connecting to and managing MySQL and MongoDB databases to store and retrieve user data
- **API Integration:** Building and connecting APIs between front-end and back-end systems
- **Testing and Debugging:** Testing across different devices and fixing bugs to keep the software stable and reliable

EDUCATION

B.Tech Computer Science and Engineering, LJ Institute of Engineering and Technology | Expected 2027 – Ahmedabad, Gujarat

BAPS Swaminarayan Gurukul (Class 12, GSEB) | Completed May 2023 – Gondal, Gujarat

BAPS Swaminarayan Gurukul (Class 10, GSEB) | Completed May 2021 – Gondal, Gujarat

FEATURED PROJECTS

Our French Academy – Live Client Website | ourfrenchacademy21.in

Professional website for a French language teacher, built to take her teaching platform to the next level and attract students and parents.

- **End-to-End Ownership:** Designed, developed, and deployed the complete website from scratch
- **Live Deployment:** Hosted and running in production on a custom domain (ourfrenchacademy21.in)
- **Real-World Impact:** Built for an actual client to strengthen her online presence and reach prospective students and parents
- **Tech Stack:** HTML, CSS, JavaScript, Tailwind CSS, Bootstrap

AI Research Assistant (Perplexity Style)

AI-powered research assistant that searches the web in real time and produces source-backed summaries.

- **Web Search & Extraction:** Real-time web search with content extraction and preprocessing using BeautifulSoup
- **LLM Summarization:** LangChain with OpenAI / Gemini APIs to generate accurate, source-backed research summaries
- **REST Workflows:** Query handling, content aggregation, and structured summarization designed to minimize hallucinations and improve factual reliability
- **Backend:** Scalable architecture suited to research automation and knowledge discovery platforms

- **Tech Stack:** Python, FastAPI, LangChain, OpenAI / Gemini APIs, BeautifulSoup

OTHER NOTABLE PROJECTS

Campus Resource Management System (CRMS) | Django + Database Design

Web-based system to manage campus resources such as classrooms, labs, and sports grounds, along with student requests.

- Role-based access for admins and students, with automated request tracking and approvals
- **Tech:** Django (Python), SQLite / MySQL, HTML, CSS, JavaScript, Bootstrap

HealthMate – Doctor Appointment Booking | MERN Stack

Full-stack appointment booking system where patients book and manage appointments and doctors manage their availability.

- REST API integration with a responsive user interface
- **Tech:** MongoDB, Express.js, React.js, Node.js, HTML, CSS, JavaScript

25+ Academic and Personal Projects | Java, Python, HTML/CSS/JavaScript, MERN Stack, Django

Built through coursework and self-directed learning across multiple languages and frameworks.

KEY ACHIEVEMENTS & HIGHLIGHTS

- **Hackovate LJ 2025:** Placed in the Top 10
- **Hackathon Participation:** Hack-NU-Thon 6.0 and SIH Internal Hackathon 2026
- **Real-World Delivery:** Built and deployed a live production website for a client (ourfrenchacademy21.in)
- **Project Experience:** 25+ academic and personal projects across Java, Python, MERN, and Django
- **Industry Experience:** Working as a Full Stack Developer at Ashva IT Solutions since July 2026
- **AI Application:** Built an LLM-powered research assistant designed to reduce hallucinations
